

# KRIMDOK

News from February 3, 2021

[Sent by Hans-J. Kerner on behalf of the collaborating institutions = University Library,  
and Institute of Criminology, Eberhard Karls´ University Tübingen, Germany]

**KrimDok / CrimDoc is a bibliographical reference system for  
criminological literature in the broadest sense of the term.**

**The CrimDoc database consists of various literature and book stocks,  
and contains also references of journals and collections, digital  
documents as well as grey literature.**

**KrimDok is multilingually oriented in principal. The major parts of entries  
in practice, however, are pertaining to German and English language  
sources.**

**All references [at present some 260,000] can be researched by utilizing  
just one search interface.**
