

The TIC2021 Conference Programme

We are enthusiastic to unveil our detailed programme of the Technology in Corrections 2021!

With over **35 presentations** and **more than 70 speakers** from around the world, this is a full agenda that addresses the latest trends and developments within the context of **'Disrupting Corrections'**. It features workshops and presentations on Virtual Reality in Prison Education, Programming and Rehabilitation, Artificial Intelligence in Offender Management, Technological Ecosystems, Smart Human Prisons, Video Conferencing, Enabling Virtual Work, and more!

To maximise opportunities for live participation around the world, each day of the TIC2021 is scheduled on a different time zone. If you miss a session or **want to watch again**, you'll be able to **access content 'On-Demand'** during the course of the event and afterwards.

We have a **dynamic agenda** that automatically displays the event **timings in accordance with your location**. To view this, and to find out more about our speakers and presentations, please visit our conference website.
