

IIRP Webinar: Complexity and Restorative Practices

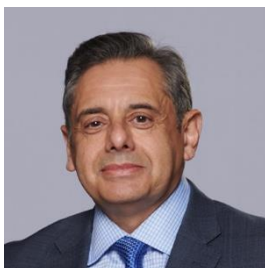

[Register Now](#)

**Join us on Tuesday, November 16 at 12pm ET /
9am PT.**

Restorative practitioners are currently faced with historic opportunities to advocate for fundamental changes in education, organizations and communities. We must be ready not only to teach new practices and skills, but also to actively engage the full complexity of the systems we hope to impact.

This free 60-minute webinar will bring together experts in the field of “complexity science” with leading change agents from the field of restorative practices. Together, they will explore how to make lasting change in complex social systems. The discussion will be led by John Bailie, Ph.D., IIRP President.
