Dawes Centre for Future Crime at UCL

Dear colleague,

We would like to invite you to attend the:

Future Fraud Conference

1-4pm, 12th July 2022 - ONLINE

**DAWES CENTRE
FOR FUTURE CRIME**

This free-to-attend event will feature a range of speakers addressing current themes in future fraud.

The ongoing digital revolution is transforming the way we live, work and interact. But these same changes are opening up countless new ways for criminals to exploit vulnerabilities. New forms of online fraud – or old fraud enacted using new digital methods – are growing exponentially, from cryptocurrency scams to identity theft to tailored ransomware attacks. The problem will be exacerbated as we enter the new 'metaverse' era where we interact and carry out activities in virtual worlds. This free-to-attend event will feature a range of speakers addressing current themes in this space. Industry and policy practitioners will come together with academic speakers to examine this pervasive crime and how it will continue to evolve in the coming years.
